

Building our Future Workforce

Making an investment in our community's future workforce is not only wise but easy and cost effective. Your local workforce investment areas, which facilitate services provided by Maricopa Workforce Connections and Phoenix Workforce Connection, collaborate with area youth providers to offer work experience and employment opportunities to our greatest natural resource...our youth.

Together we will match your needs with the aptitudes and skills of youth with the goal of aiding in your businesses success and the overall success of our future community.

The bottom line: ROI

- Youth wages paid by MWC youth provider; up to 40 hrs. per week
 - Investment in the future workforce
 - Possible benefit from Work Opportunity Tax Credit*
- Workforce counselor to work with youth and worksite supervisor(s)
- Workman's Compensation and general liability insurance covered by the youth provider

Work experiences/internships are designed to build work maturity skills and familiarize individuals to a specific occupation to guide in their future career choice. These opportunities not only improve an individual's skills they may also be a way to attract new candidates to a career with your business; one they may not have otherwise received exposure.
