

Faith-Based or Community Organization:

Maricopa Workforce Connections and Phoenix Workforce Connection are pleased your organization is interested in becoming a SHARE Network Access Point. By working together, we can expand access to the One-Stop system to job seekers who might not ever have come to a One-Stop Center.

As an Access Point, it is recommended that your organization have at least one operable computer to assist job seekers in their job search. If your organization has high-speed internet and the space to set up the computer(s), but need assistance in obtaining computers, the Foundation for a Brighter Tomorrow may be able to help. Please contact them at www.ffabt.org.

You will need to include the following in your request:

- a. History of your organization
- b. Number of people the organization serves
- c. Organization's mission
- d. Goals (what the organization plans to accomplish as an Access Point)

If you have any questions regarding your request, contact the Foundation for a Brighter Tomorrow.

Foundation for a Brighter Tomorrow
Embracing challenges and
creating opportunity.™
