

# Have you considered a career as a Home Energy Auditor?

If you:

have a high school diploma or GED, have aptitudes toward math and science, are able bodied, and able to commit to completing an intensive 3 week training and certification program...

You may benefit from attending an informational/enrollment session to participate in a federally funded Home Energy Auditor training/certification program.

**Inquire if you are eligible or to find out about the next informational/enrollment session, send an e-mail, with a copy of your resume to [SESP@mail.maricopa.gov](mailto:SESP@mail.maricopa.gov).**

*This unique training/certification opportunity is made possible for Maricopa County residents through a collaborative within the Maricopa County Human Services Department between its Workforce Development and Community Services Divisions. The effort is made possible via US Department of Energy funding through the American Recovery and Reinvestment Act and Arizona's Governor's Office on Energy Policy.*
