

DOES YOUR FUTURE CAREER CONTAIN A SUSTAINABLE ENERGY/GREEN COMPONENT?

If you've done your research and identified a career path, one containing 'green' or sustainable energy components, elements of Arizona's Energy Sector Partnership grant may be of assistance.

Many of the industries with projected growth with green skill requirements are in CONSTRUCTION, ARCHITECTURE, ENGINEERING, CARPENTRY, INSULATION, HEATING/AIRCONDITIONING/REFRIGERATION, MATERIAL FABRICATION, and EQUIPMENT ASSEMBLY.

Once new green technology skills are mastered and an industry recognized certificate or degree is obtained, individuals will be prepared for employment in new industry occupations.

Inquire if you are eligible: send an e-mail,
with a copy of your resume, to
SESP@mail.maricopa.gov or call
Harvey at 602/372-4249

Equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities.
